Muslim place of worship

Early Man? – Lucy

The image shows a museum exhibit of the Lucy skeleton, a collection of fossilized bones arranged in a human-like shape on a dark surface. The bones are light brown and include a skull, ribcage, pelvis, and long bones of the arms and legs. The exhibit is viewed through a glass display case.

Leadership workshop

Working in the kitchen

A new preacher

Working on a well

Water at last

Village Lectureship

Teaching on Philippians

baptizing in a pool

This is better!

09/07/2014

Unloading the truck

Does the cylinder leak?

Trying to make do with what we have...

This is good!

Finished with a new apron...

One of the deadliest snakes –
a green mamba

Happy ladies now that the well works

Thank your for the water!

Putting Tonga material together

A family garden...if there is water

Village headmen come to us to request help with wells

Visiting the Masaga congregation

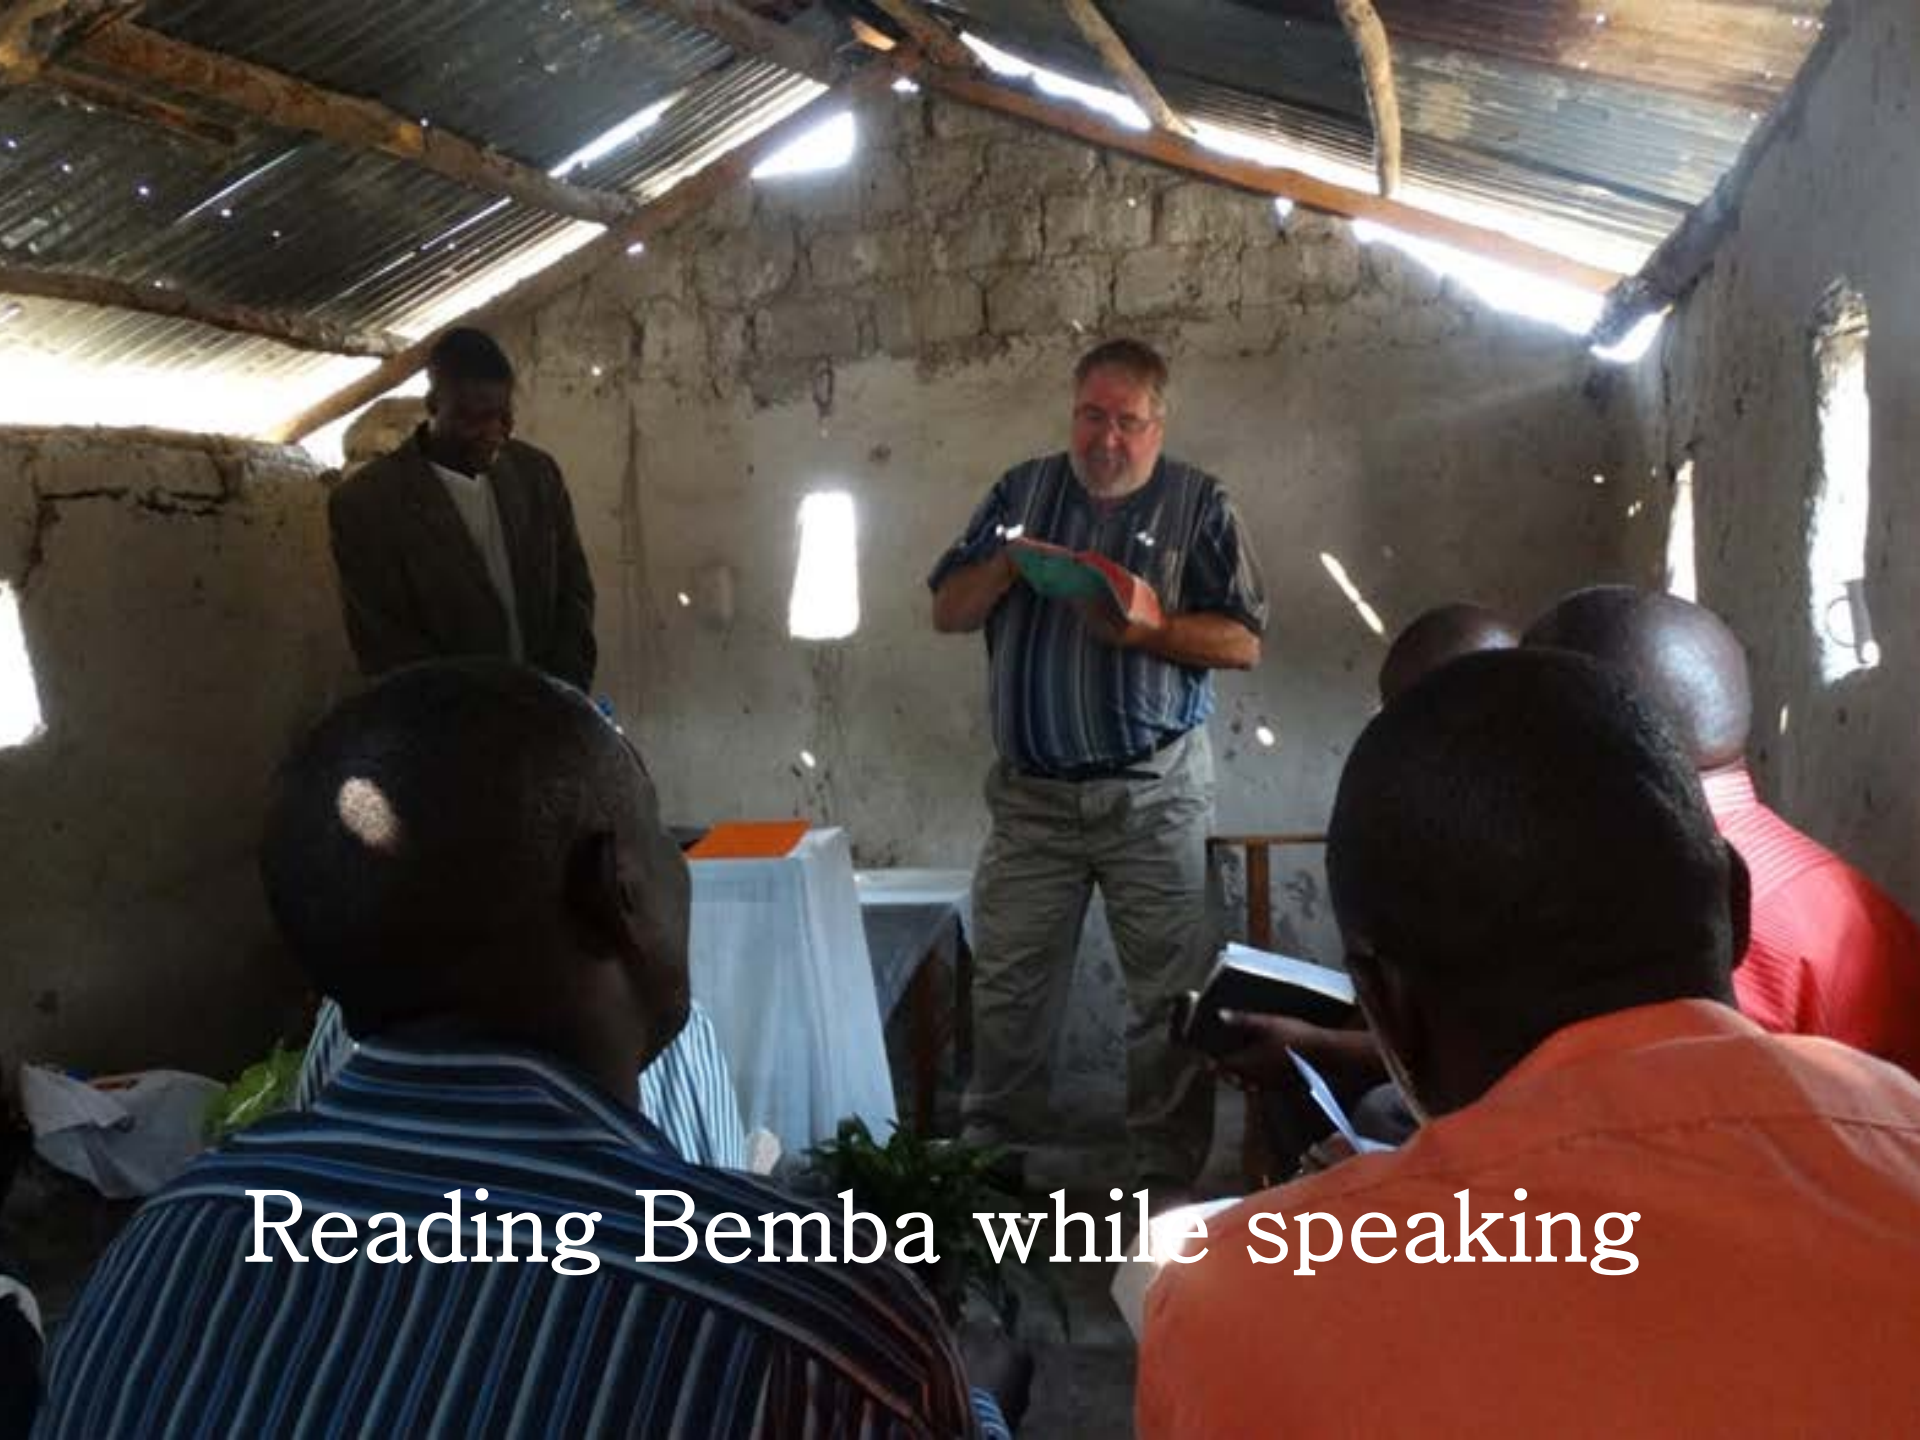

Encouraging the church

Traveling north to the Copperbelt

Being greeting by the church at 14 Mile

Reading Bemba while speaking

Mopani Copper Mine, Mufuliri

Bush driving to reach a well

Meeting the head man at Chitumbi

The committee to take care of the well

Happy students – they now have water

Speaking in Chirundu

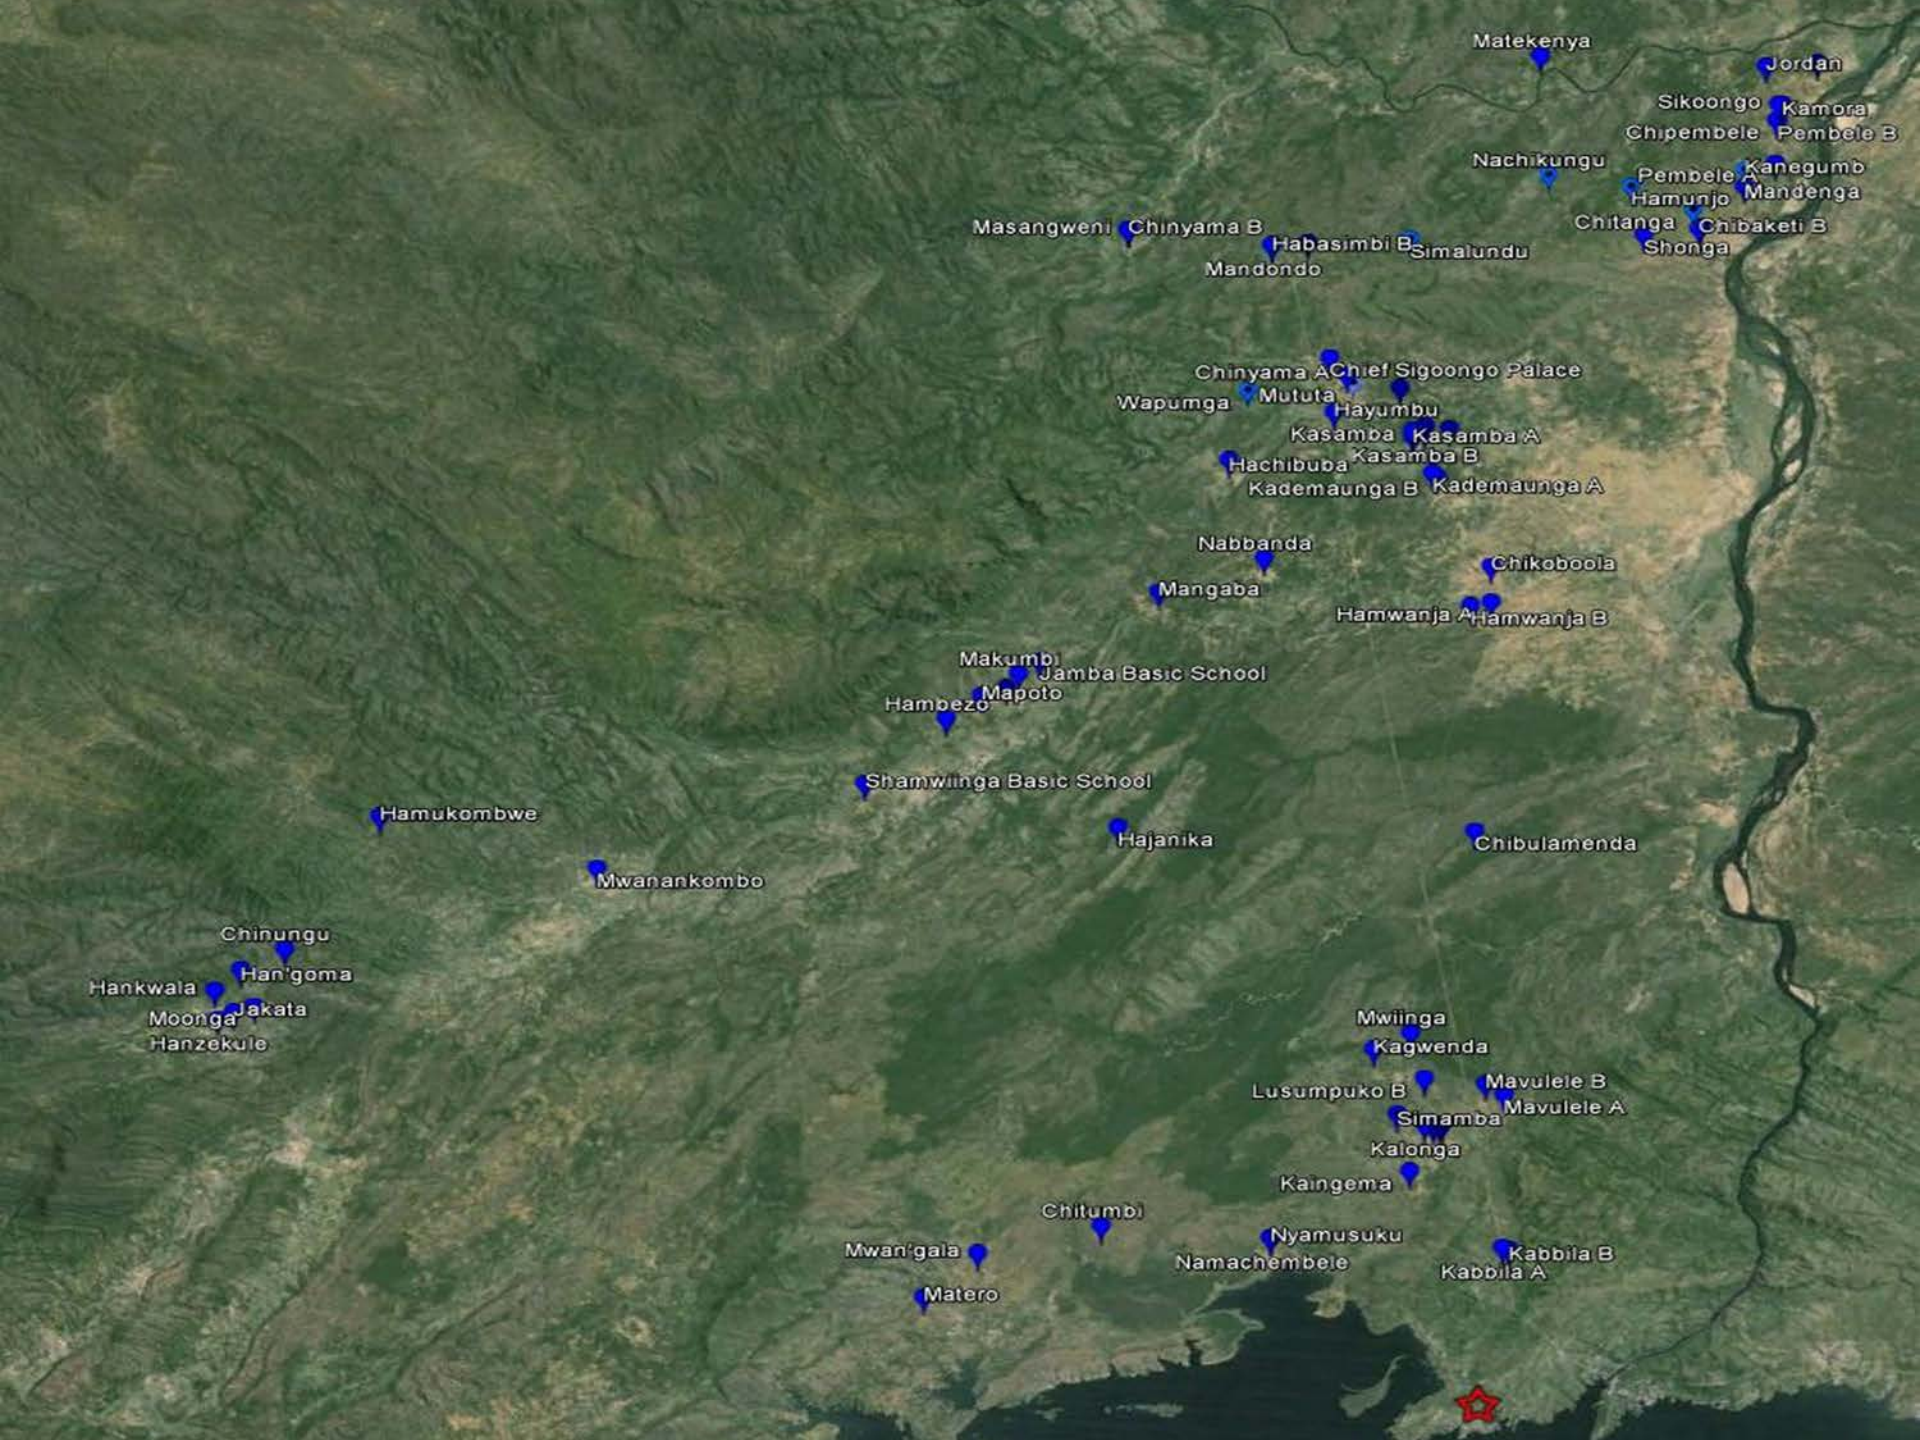

A brief summary

What were we able to accomplish this year?

1. Leadership seminar – It was successful. The leaders were encouraged to act from the teaching of Scripture.
2. Village Lectureship – Drew lessons from Philippians with emphasis on the inner man and not just the outward appearance. There were 7 baptisms.
- 3 Well repair – in total we repaired 18 wells providing safe drinking water for 20,000 or more Zambians.
4. Mufulira – A good and helpful effort to strengthen the congregations there. There were 23 restorations as a result. Charles will return there before the end of the year to do some further work.
5. Church planting – we were unable to plant the church in Chitumbi due to the unfortunate death of the village woman in a crocodile attack. This planting will be done within the next 2 weeks. We got the OK to open a congregation in the Dakota area. We will be discussing the timetable for that to be done.

A man wearing a blue short-sleeved shirt, dark trousers, and a blue baseball cap is operating a manual water pump. He is standing in a dry, open landscape with sparse trees in the background. The pump is mounted on a metal frame and has a long, vertical pipe extending into the ground. Water is being pumped out of the pipe and is visible at the bottom of the frame. Another person is standing behind him, looking on. The pump is surrounded by a fence made of vertical wooden poles. The ground is dry and sandy. The text "To date we have supplied safe drinking water to over 106,500 Zambians" is overlaid on the image in white font.

To date we have supplied
safe drinking water to over
106,500 Zambians

Ready to build
